MESSAGE

East-West Metro Corridor Project, Kolkata is most important project for people of Kolkata because it is connecting two very important and busiest railway stations of India i.e. Howrah and Sealdah. Apart from this, project gains importance from the fact that it will be the first metro in India where tunnel shall be passing under the river Hooghly.

The East-West Metro is using state of the art technologies like TBM (Tunnel Boring Machine) to minimize inconvenience to the citizens during construction phase. Features like Platform Screen Doors, Computerized Train operation, Automatic Train Control, Automatic Train Supervision and Automatic Fare Collection would provide a highly reliable and safe transportation system.

We, at Kolkata Metro Rail Corporation Ltd., a Government of India Undertaking are committed to provide the citizens of this great city, a most modern, reliable, safe and efficient transportation system within the year 2016 – a system for which Kolkata would be proud of!

Hemant Kumar Sharma
Managing Director
